In Banking on Democracy, Javier Santiso investigates the links between politics and finance in countries that have recently experienced both economic and democratic transitions. He focuses on elections, investigating whether there is a "democratic premium" -- whether financial markets and investors tend to react positively to elections in emerging markets. Santiso devotes special attention to Latin America, where over the last three decades many countries became democracies, with regular ...

Do markets prefer democracy? How do political budget cycles impact elections and vice versa? In Banking on Democracy: Financial Markets and Elections in Emerging Countries, Javier Santiso, Professor of Economics at ESADE Business School, assesses the interactions between financial markets and democratic elections in emerging Latin American economies. Santiso asserts and later illustrates that political transitions and economic upgrades
