2004 saab 9-3 manual climate control. fan gets stuck and stays on when key is removed . blower itself is functioning correctly. I believe there must be a relay or resistor between the control switch and the blower that sticks or misreads but cannot see. Is there such a beast and if so where and how do i get to it and test?

Saab Automatic Climate Control by Jason Pearce. The Saab ACC control panel reads all the sensors and and then regulates the cabin temperature to your desired setting. It does this by the means of a flap located inside the AC/heater housing. This flap regulates the balance of air flow through the heater core and AC evaporator. The ACC control panel can move this flap using a actuating motor ...
